Subject: OIAI Up-tiering Request
Attachments: Retiering Justification Draft 7-24-18.docx

Martha,

As just mentioned, below is the process provided by Keith for requesting an uptiering. Keith is our RSC representative. Attached is the proposed justification (you already have a hard copy).

Per the ADP:

If at any time during the development of an action, the lead office or a participating office concludes that the tiering designation needs adjusting, the RSC representative/RRC for the requesting offices should submit a tiering change request, including a justification for the up-tiering/down-tiering of the action. The tier change request will then go through the same review/approval process as the original tiering action--alerting the agency of the request and providing an opportunity for other offices to concur. Note that the participating office submitting a tier change request should discuss the matter with the RSC member of the lead office prior to any tier change request being submitted.
